

# **ILYM FUN LOG**

## **Service Project Coordinator**

Before 2005, the service project was on Wednesday evening and developed to be some type of service project that would allow the children and teachers to become acquainted with each other while working on the projects. In this scenario, the teachers should not run this program as they will be spending much time teaching later on.

Beginning in 2005, the Wednesday night program became a movie night and the service project was moved to Saturday night (due to low attendance at the Wednesday night service project and the hope that getting the word out about the project over the earlier days of Annual Sessions would result in more children attending). When it was moved to Saturday night the element of student/teacher interaction was lost.

The service project is for children of ALL AGES, so plan accordingly. (In 2010 the younger children – 0-6ish – watched a movie with the babysitters while the older children did the service project).

Some Suggested Projects:

- Personal care kits for homeless shelter
- AFSC Material Aids
- Make some craft project to sell and donate the proceeds to a charity of the kids' choice.
