

Maintenance and Planning

About 35 people joined to help on the September 8-9, 2012 work weekend with environmental concerns and maintenance and planning projects. The later included:

- * Four of the six cabins have been cleaned, sanded and stained
- * The screens on all of the cabin were repaired
- * The steps on all of the cabins were cleaned
- * The furniture for the Clear Creek front porch was assembled

Steve Kuhn combined the multiple camp reports into one. Maintenance and Planning met by phone in order to update and prioritize the CAMP report. This is being developed with multiple views to support the work of M and P, as well as, the finance committee and longer range planning.

Please come and joins us for the next ILYM Semi-Annual Work Weekend on Saturday, May 18 to Sunday, May 19, 2013. Once again it will be held in collaboration with ECC. We would also love to have more people given the increase in the size of the property.
