

11.05.11

Illinois Yearly Meeting  
Site Envisioning Committee

**Report to Continuing Committee at the meetinghouse in St Louis**

We met once since Annual Sessions on 09.10.11 at the Rorems' House in Kankakee. We reviewed a matrix of input assembled from the reports submitted by the standing committees and monthly meetings. We also reviewed the master plan map prepared using the same data, and a draft of the history of the site development from the first visioning retreat to the present. This history has been refined and will be published in the winter edition of Among Friends.

Our next meeting will be held in McNabb on 11.19.11. We will be meeting with representatives of the standing committees to review and craft a refinement to the master plan. This plan will then be presented for general review to all those in the yearly meeting wishing to attend. That meeting will be held on 01.21.12 at a site to be determined. The seasoning coming out of that meeting will be integrated into the plan and submitted to the Spring Continuing Committee for review prior to its presentation at Annual Sessions.

Respectfully submitted,

Chip Rorem  
Clerk
